CLIENT GUIDE · WEB DESIGN

GETTING STARTED WITH YOUR WEBSITE

What happens next, what we need from you, and the choices that are yours to make.

Thank you for trusting DEPARTURZ with your website. Everything you need is in one place below: what happens next, what we need from you, how to pay, and the decisions that are yours to make.

1. NEXT STEPS AND TIMELINE

1. **Sign and pay the deposit.** Accept your agreement and pay the deposit in your DEPARTURZ portal. The deposit starts the project.
2. **Send your content.** Use the list in section 2. You don't need to send everything at once; the first batch is enough for us to start.
3. **Set up your accounts.** Choose your platforms (section 3) and create each account in your name. We'll walk you through it if you'd like.
4. **First look.** We share a first look at your home page for feedback before building the rest.
5. **Build.** We build the remaining pages, connect your accounts, and test forms, checkout and confirmation emails.
6. **Review and launch.** You do a final review in the portal, we go live, and the balance is due at launch.

Your dates are in the Timeline in your portal, and they hold as long as content and feedback arrive on time. We work on weekdays. If you need a rush, tell us and we'll do our best to make room.

2. WHAT WE NEED FROM YOU

Your brand

- Logo files, ideally SVG or high-resolution PNG, in light and dark versions
- Brand colors and fonts, if you have them
- Two or three websites you love, and what you love about each one

Words

- What you do and who it's for, in your own words. A few paragraphs is plenty, and we're happy to polish them.
- Your services or products, with prices if you show them
- Short bios, quotes or testimonials you'd like to feature
- Contact details to show on the site, and the email where messages and orders should go

Photos and video

- As many as you're comfortable sharing. Send the original files from your phone or camera, not screenshots or images saved from social media, which lose quality.
- Let us know your favorites, and anything you'd rather we didn't use.
- Only send photos you have the right to use. If a professional photographer took some, a quick okay from them is a good idea.
- The easiest way to send them is the Check-in page in your portal, or a shared Google Drive, Dropbox or iCloud folder.

Music

If you'd like music anywhere on the site, it has to be a track you're licensed to use. Popular songs usually aren't allowed on websites. We can suggest royalty-free options.

Your domain and email

- Your web address (domain). If you don't have one yet, we'll help you choose and register it in your name.
- Access to your domain's DNS settings, or a few minutes on a call so we can connect it together.

3. CHOICES THAT ARE YOURS TO MAKE

Whatever you choose, every account should be in your name so the money and the control stay with you. Outside services bill you directly, as your agreement explains.

If you're selling online

OPTION	WHAT IT IS	GOOD FIT FOR
Shopify	An all-in-one store: products, inventory, orders, shipping labels and tax tools. Monthly subscription plus a card fee per sale.	Ongoing stores with many products
Stripe	Payment processing only. No monthly fee, just a fee per sale. You track orders and shipping more by hand.	Small or one-time product runs
Square or PayPal	Payments and simple stores, with in-person options.	Sellers who also sell in person
Fundraiser sites (Bonfire, Custom Ink)	They print and ship for you, but shoppers buy on their site, not yours.	Campaigns that don't need their own store

Printing and shipping (for merchandise)

- **Print on demand** (such as Printful or Printify, which connect to Shopify): each item is printed and shipped when someone orders. No inventory up front, but a lower profit per item.
- **Bulk order from a local printer:** you buy the stock up front for a lower cost per item, and you pack and ship orders yourself or hand them out.

Fees change, so please confirm current pricing on each company's website. If your sales support a cause or a scholarship, a short conversation with an accountant about sales tax and how the income is reported is worth it.

4. HOW TO PAY

- **In your portal:** under Payments, pay by card, Apple Pay, Cash App Pay, PayPal or Venmo.
- **By Zelle:** send to 832-837-0772 (the name shows as Nathaniel Shoyinka) and put your invoice number in the memo.

Your invoice covers DEPARTURZ's work only. Platform subscriptions and fees, your domain, hosting, and any product, printing or shipping costs are paid directly to those companies.

5. GOOD TO KNOW

- **You own it.** Your photos, your words, your accounts, your domain, and the finished site once it's paid in full.
- **Revisions.** Your agreement lists the rounds of revisions included. We can talk any time about adding pages or features later.
- **After launch.** For thirty days after the site goes live, we fix anything that isn't working as built, at no charge. We usually reply within two to three business days, and within one business day if something is urgent, like the site being down or checkout not working.
- **Change requests.** It's easiest to collect them in one message and send them together.

Questions, big or small? Message us in your portal any time. We'll move at a pace that works for you.
